Work Experiences in Legal & Paralegal Field

- **Software Developer** / Petapator: (Remote - Hong Kong)
  July 2022 - Present
  As a Developer at Petapator, I was instrumental in conceiving and creating a powerful software tailored for patent enthusiasts and professionals. The software seamlessly facilitated the bulk download of patents from various reputable sources, including Google Patents, WIPO (World Intellectual Property Organization), USPTO (United States Patent and Trademark Office), and Espacenet. This innovative tool significantly streamlined patent research processes, providing users with efficient access to patent data for various purposes, including analysis, innovation, and legal requirements.
- **Apprentice Lawyer** / MCLaw Services: Dhaka
  May 2023 - August 2023
  During my tenure at MCLaw Services Ltd, I delved into the intricacies of case brief preparation and gained hands-on experience in the nuanced realm of maritime law. This opportunity enhanced my comprehension of maritime legal matters and expanded my knowledge base within the field.

Work Experiences in Software Development

- **Full Stack Engineer** / Makebell: (Remote - Hong Kong)
  May 2023 - Present
  Empowered a collaborative development environment as a Full Stack Engineer. Designed, developed, and deployed user-friendly websites and secure APIs using Node.js (Express.js) and Python (Flask) frameworks. Ensured a seamless user experience through close collaboration with designers. Additionally, integrated Stripe for secure payments, implemented serverless functions with Firebase Functions, and managed cloud infrastructure on Google Cloud Platform and App Engine. Leveraged CI/CD pipelines with GitHub Actions to automate deployments to App Engine, streamlining version control and ensuring efficient releases.
- **App Developer** / Ricciwawa: (Remote - Hong Kong)
  April 2021 - June 2022
  In my role at Ricciwawa, I served as both Project Manager and Flutter Developer for a Chinese learning app with a global user base. Leading a multicultural team, I managed project objectives and directed collaborative efforts. My technical contributions included Flutter development to create an engaging learning experience, and I implemented Firebase authentication to enhance security and user management. Additionally, I took responsibility for comprehensive test case writing, ensuring the app's reliability and quality for users from around the world.
